Date: May 16, 2014

The Butterfield Park District will be hosting a public meeting on potential improvements at Glenbriar Park that includes the Recreation & Aquatic Center and the future land acquisition at IL 56 & 53. The Park District is in the process of identifying design ideas in the creation of a recreation campus master plan. This park and facility is a hub of leisure activities within the Park District. The Park District will be applying for an upcoming state grant from the Illinois Department of Natural Resources in July of this year. The Open Space Land Acquisition and Development grant will assist the Park District in securing funds for the acquisition of the parcel of land, adjacent to the Park District's property, at IL 56 & 53 from The Conservation Foundation.

The Park District is very interested in learning more from the community about their design ideas as well as feedback for the grant application. The public meeting will be held at 7:00 pm on Wednesday May 28th at the Park District's Administration and Recreation Building, 21 w 730 Butterfield Road, Lombard Illinois 60148. Park District Director Larry Reiner said "This is a critical time for the Park District as we look forward towards the future. We have an opportunity to make a difference for future generations and we want to get enough input so that we make the right decisions, which are not always the easy ones."

Please contact the Park District at (630) 858-2229 x 12 for more information.
